

DODGE CITY MIDDLE SCHOOL

LIST OF PRE- LOADED IAPPS

KEYNOTE

Keynote is the most powerful presentation app ever designed for a mobile device. Built from the ground up for iPad, iPhone, and iPod touch, it makes creating a world-class presentation — complete with animated charts and transitions — as simple as touching and tapping. Start with an Apple-designed theme and add text, images, charts, tables, and shapes with just a few taps. Highlight your data with stunning interactive bar, column, scatter, and bubble charts. Present right on your iPad, iPhone, or iPod touch. Or use video mirroring to present on an HDTV, and preview your slides and notes on your device using the Presenter Display.

IMOVIE

iMovie is designed to make beautiful HD movies anywhere with iMovie, the fast and fun moviemaking app that puts everything you need to tell your story at your fingertips. Browse and play projects in the Marquee view. Create Hollywood-style trailers or sophisticated home movies in minutes.* And share your finished projects with the world – right from iMovie. Build Hollywood-style movie trailers.

EXPLAIN EVERYTHING

Explain Everything is an easy-to-use design tool which allows you to annotate, animate objects and use your own voice to explain what is going on. Explain Everything is one of the best app available for students and teachers right now. The app provides a powerful resource for all grade levels and curriculum areas. Explain Everything can also be used as a substitute for more expensive licensed computer software.

WORD PRESS

It's easy to manage your WordPress blog or site from your iOS device. With WordPress for iOS, you can moderate comments, create or edit posts and pages, view stats, and add images or videos with ease. All you need is a WordPress.com blog or a self-hosted WordPress.org site running 3.1 or higher. WordPress for iOS is an Open Source project. You can help contribute to its development at:
<http://ios.wordpress.org/>

BOOK CREATOR

Book Creator is \$4.99 app that provides a simple way to create your own beautiful iBooks, right on the iPad. Read them in iBooks, send them to your friends, or submit them to the iBookstore. Ideal for children's picture books, photo books, art books, cook books, manuals, textbooks, and the list goes on. Use Book Creator to create a personalised story for your child, or arrange family pictures and art into a beautiful eBook. Then pass your iPad to your child and watch their imagination run free!

SCREEN CHOMP

Share a great idea... Explain a tricky concept... Help kids with their homework...ScreenChomp for iPad helps you do it all. A simple doodling board, markers, and one-click sharing tools make spreading your ideas and know-how easy and fun! Just - Record It. Sketch It. Share It. - to create a sharable, replay-able video that tells your story clearly.

NOTABILITY

Notability is one of the best note-taking apps available for the iPad. Notability supports text, images and audio recordings. The app contains a sketch pad that let's you mark-up images and web clips that you import. Notability includes dozens of fonts, text sizes, colors, and a number of formatting presets. The app provides some of the best PDF annotation available right now.

POPPLLET LIGHT

Popplet is a platform for your ideas. Popplet's super simple interface allows you to move at the speed of your thoughts. With Popplet you can capture your ideas, sort them visually, and collaborate with others in real-time. Quickly and easily! Popplet was constructed for the purpose of collecting and curationg ideas into a visual space where relationships to ideas can be formed or generated. The application provides a container called a Popple. The popple container is designed to hold various media related images such as photos; drawings and text to help the learner or idea creator make visual associations with a concept through objects. This application fits the criteria as a high engaging learning tool and can be easily integrated into the classroom for daily use. It is recommended that students first use their note pad and then simulate the mind map Popplet as reinforcement in tying together multiple concepts.

GOOGLE DRIVE

Google Drive is one safe place for all your stuff. Upload photos, videos, documents, and other files that are important to you, then access what you need wherever you go, on any device. Get going with up to 15GB of storage. Free.

- Edit and create documents and spreadsheets with Docs and Sheets
- Share photos and files with friends and family
- Always have the latest version of your documents, whether at home or in the office
- Pin files to make them available offline
- Keep photos and videos from your device in Drive so you have everything if it breaks or is lost
- Access your stuff from a new device without having to transfer or download anything

SOCRATIVE

Socrative brings smart clickers, student response and ease of use to a whole new level. Engage the entire classroom with educational exercises and games while capturing student results in real-time. Interact with the data to further student understanding in the moment, and review the reports to prepare for future classes. Socrative will even aggregate and grade your pre-made activities! Saving you time, so you can engage more with your students on an individual level. Create a library of activities and share them with your colleagues and learning community. Not a 1:1 school? That's okay! Have students bring their own devices and join in the learning!
